

More like You

Hayli Lindgren

Just one moment in your presence
And I am changed
To see like you see Lord
Love like you love more
I'm never the same
To be more like you, Jesus
More like you, Jesus

I will worship you
Till you have all of me, all of me
I will worship you till you consume me with your love, with your fire

I've see your beauty
It's all around me
And I am changed
To taste of your goodness
Know all your kindness
I'm never the same
To be more like you, Jesus
More like you Jesus

I will worship you
Till you have all of me, all of me
I will worship you
Till you consume me, consume me with your love with your fire.

Just one moment in your presence
And I am changed
To see like you see lord
Love like you love more
I'm never the same
To be more like you Jesus
More like you Jesus
